

March 12, 2020

Dear Friend,

You may have received a letter written just yesterday indicating that our visiting hours were limited.

The federal government has deemed the Corona Virus to be at the pandemic level. This virus currently has no vaccine nor is there an anti-viral medication available to lessen its severity. This has proven to be lethal to the elderly population. Therefore, the federal government has instructed all nursing facilities to suspend non-critical visits.

**Presidential Oaks has suspended visiting hours until further notice.**

This practice remains subject to change based on facility conditions and guidance from outside agencies. Rest assured that we are also monitoring the CDC website for information and will contact the health department if we suspect a resident or staff person have or have been exposed to COVID-19.

Sincerely,

Anne M. Purington, NHA, FMLI, BS  
Chief Executive Officer
